

## EXPERIENCE

**Age of Learning** Web Developer Feb 2014 - Mar 2015

In this role I was responsible for developing web content, in pixel perfect form, into mobile friendly web views for the mobile development initiatives of both iOS and Android platforms. The development environment was PHP, OO Javascript, MySQL on linux servers.

**SalesTaxer** Web Developer Aug 2013 - Feb 2014

As lead developer at this start-up, I developed the front-end and backend, including a REST API to deliver real-time sales tax information for eCommerce sites in compliance with the Marketplace Fairness Act. The development environment was PHP using the CodeIgniter (MVC) framework, JavaScript & jQuery, MySQL on a Linux platform.

**Author Bucket** Web Developer & Project Manager May 2013 - Aug 2013

Hired to oversee offshore development of an eBook retail site, I also developed a process for watermarking and autographing eBooks on the fly. The development environment was PHP using the CodeIgniter (MVC) framework, JavaScript & jQuery, MySQL on a Linux platform.

**SmartSound Software** Web Developer Oct 2011 - May 2013

I developed the business management system for the Deloitte Fast 50 tech company. Features included contracting, eCommerce management, inventory management, accounting, royalty payments, and much more. The development environment was PHP using the CodeIgniter (MVC) framework, JavaScript & jQuery, MySQL on a Linux platform

**La Visual** Sr. Web Developer Jun 2010 - Oct 2011

Led a team of developers in making websites for many name brand companies including LA Gear, Kassting Inc., LikeZebra, Band of Outsiders, and many more. We also developed a proprietary CMS. The development environment was PHP using the CodeIgniter (MVC) framework, JavaScript & jQuery, MySQL on a Linux platform

## EXPERIENCE

**SmartSound Software** Operations Manager Dec 2008 - Jun 2010

Managed the daily operations of the company including profit and loss, accounts payable, payroll, financial report creation, audit preparation, managing the organizations HR, including hiring and firing in collaboration with the CEO.

**SmartSound Software** Technical Support Manager Sept 2003 - Dec 2008

Managed the incoming phone and email support department and oversaw offsite software installations and trainings. In addition, I managed the company's website from 2003 through 2007. Supervised all in-house software testing as well as real word beta testing prior to release.

**Advantage Physical Therapy** Administrator April 2001 - Sept 2003

Handled all administrative tasks for a multi-location physical therapy group in Ventura County. Managed all receivables and debt collection, marketing efforts and physician relationships.

**Chase Bank** Intranet Developer & Tier II Tech Oct 1999 - April 2001

Using HTML, CSS and JavaScript I created an intranet customer service tool for the technical support staff in the Internet Banking department that saved Chase nearly \$500,000 in software expenses.
